

LogicNetwork

```
graph BT; A[LogicNetworkConfigurer] --> B[LogicNetwork]
```

A diagram showing a relationship between two classes. A box labeled 'LogicNetworkConfigurer' is at the bottom, and a box labeled 'LogicNetwork' is at the top. A vertical arrow points from the top of the 'LogicNetworkConfigurer' box to the bottom of the 'LogicNetwork' box, indicating that the configurer class is associated with or manages the network class.

LogicNetworkConfigurer
